AXI FINANCIAL SERVICES (UK) LIMITED

FRN 466201

PRODUCT SCHEDULE

RETAIL CLIENTS

IMPORTANT NOTICE

This Product Schedule issued by Axi Financial Services (UK) Limited (**“we”, “our” or “us”**) forms part of the Client Agreement and should be read in its entirety. It sets out the Margin Requirements, fees and charges you will incur when dealing in our Products, the interest that you may pay or receive in respect of your Account balances and other costs you will incur. This Product Schedule describes the various Contract specifications for the Margin FX Contracts (FX) and Contracts-for-Difference (CFDs) that we offer.

LIQUIDATION LEVEL

We may place a liquidation order for your open Position(s) when your Total Equity balance falls below the Liquidation Level or zero, whichever is the greater.

Standard and Pro Accounts

The Liquidation Level is **50%** unless varied by us in writing.

COMMISSIONS

Pro Accounts

Our commission on Pro Accounts pays for our clearing and aggregation costs, together with our cost of providing the service to you.

Commissions are charged in the Account Currency and are based on the number of standard Contracts bought or sold in each transaction. Where a fraction of a standard Contract is dealt the charge is made on a pro-rata basis.

The table below sets out the commissions payable on FX and Bullion transactions on Pro Accounts when you open a Position.

Account Currency	Per Standard Contract	Account Currency	Per Standard Contract
CHF	4.50	PLN	zł17.00
EUR	€4.00	USD	$4.50
GBP	£3.50		

Standard Accounts

Our transaction fees are incorporated into the bid-offer spread for each Product (our spread). Because we deal as principal, the prices we offer you may not be the same as those in the Underlying Market and may be wider or narrower.

The price offered to you may depend upon several factors including transaction size, term of the Product, our business relationship with you, the prevailing Underlying Market rates and in the case of swaps and rollovers on the differing interest rates applicable to the currency pair involved in a FX transaction.

Remuneration of Introducing Brokers or other partners

We may remunerate a third party for introducing you to us in the form of wider spreads, commissions, or other charges payable by you.

FEES & CHARGES

Fees and charges apply to Contracts as follows:

Charges Benefits and Adjustments	Applicable Contract types
Financing Charge/Benefit	Margin FX Contract Bullion Spot CFDs Commodity Cash CFDs Index Cash CFDs Share CFDs
Rollover Charge/Benefit	Commodity Futures CFD Index Futures CFDs
Dividend Adjustments	Index Cash CFDs Share CFDs

Financing Fees

The Financing Charges and Financing Benefits are an adjustment reflecting our cost of holding the position in the Underlying Instruments plus our sales margin.

A Client Account will either be credited or debited with financing fees based on open Positions as at the close of each Business Day. Financing fees accrue in each positions “Swap” field in MT4 and MT5 whilst a Position remains open and are credited or debited to Client Accounts when the trade is closed. For ATP accounts, financing fees are applied at the close of the business day as a cash withdrawal or deposit.

Financing fees are calculated in relation to the counter currency and are converted to and applied in the Account Currency.

Financing fees are subject to change and are available within the Trading Platform.

FX & Bullion Spot CFD Financing

If you are long a Contract where the platform’s swap rate for long Positions is a positive value, you will accrue a Financing Benefit. If you are long on a Contract where the swap rate for long Positions is a negative value, you will accrue a Financing Charge.

If you are short a Contract where the platform swap rate for short Positions is a positive value, you will accrue a Financing Benefit. If you are short on a Contract where the swap rate for short Positions is a negative value, you will accrue a Financing Charge.

In certain interest rate market conditions, the swap rate may be negative for both long and short Positions.

We apply Financing fees daily and usually in the 30 seconds before 5pm New York close. Currency pairs will have triple daily swaps applied on either Wednesday or Thursday in order to reflect the Underlying Market Settlement Date rolling over the weekend. The Product Schedule displays, for each pair, which day triple swaps are applied.

We may not incorporate short currency holidays into the swap rate calculation but may for extended currency holiday periods, for example Lunar New Year and Golden Week.

Swap Free Accounts

Swap free Accounts are not subject to Financing Charges or Benefits on FX Margin Contracts, Bullion Spot CFDs and Cash CFDs. We reserve the right to revoke the swap free status of any live account considered to be misused, trading in a suspicious manner or operating outside the realms of good faith.

Futures CFD Rollovers

The principle of the Futures CFD rollover process is that traders will neither profit nor lose from the CFD rolling from the current underlying futures price to the next.

A rollover will arise in a Futures CFD when the underlying front month futures contract is approaching the Expiry Date of the Underlying Instrument and we change our CFD pricing from the front month to the Next Serial Futures Contract. When the new price feed takes effect, this will immediately create a gain or loss upon your open Position. This profit or loss will depend upon your Position size and direction, the price differential of the expiring and the new Underlying Instrument upon which the price will be now based.

You will be credited or debited with a Rollover Charge or Rollover Benefit that reflects the buying and selling of the expiring and next Underlying Instrument contract. For example, if you have incurred a profit on the change to the new Contract Price you will receive a Rollover Charge which will offset the gain. If you incurred a loss on the change to the new Contract Price you will receive a Rollover Benefit which will offset the loss.

We typically switch from using the front month to the Next Serial Futures Contract 1-2 trading days prior to the Underlying Instrument's last trading day when liquidity can be limited.

The rollover dates can be found on our Website.

Index Cash CFD Finance Charges

If you keep an Index Cash CFD Position open overnight (after 5pm New York time) we will post a finance adjustment to your open trades in the form of a Financing Charge or Financing Benefit, to reflect the cost of funding your Position. This finance adjustment is based upon a central bank financing reference rate (FRR) relevant to the symbol and has our margin applied. Charges are annualised and triple finance charges are charged on a Friday to reflect the charge over the weekend.

Index CFD Dividend Adjustments

Index CFDs are made up of a group of shares that may pay dividends throughout the year. When a dividend is paid on a share, the value of the share will drop and therefore so does the value of the Index. Dividend adjustments are applied on these Products to negate the impact of the drop in Index price.

Short Positions will be positively impacted by the drop in Index price, so you will be debited the dividend adjustment value. Long Positions are negatively impacted so you are credited the dividend adjustment.

Commodity CFD Finance Charges

Finance rates for Commodity Cash CFDs reflect the carry cost of our liquidity sources plus our margin and will have the potential to change daily.

You can view the current finance rates on the Trading Platform. Triple finance rates apply on a Friday to reflect the weekend.

Share CFD Finance Charges

Finance rates for Share CFDs reflect the carry cost of our liquidity sources plus our margin and will have the potential to change daily.

You can view the current finance rates on the Trading Platform. Charges are annualised and triple finance charges are charged on a Friday to reflect the charge over the weekend.

Share CFD Dividend Adjustments

When a dividend is paid on a share, the value of the share price will drop. Dividend adjustments are applied on these Products to negate the impact of the drop in price.

Short Positions will be positively impacted by the drop in price, so you will be debited the dividend adjustment value. Long Positions are negatively impacted so you are credited the dividend adjustment.

Corporate Action Adjustments

Share CFDs may be subject to adjustments that are either positive or negative depending on the corporation action and whether you are long or short.

The most common corporate action is dividend payments which are credited or debited based on the value of your net exposure.

Dividend adjustments take place on the ex-dividend date.

OTHER CHARGES

Deposits

To deposit funds, please login to your Client Portal to view your payment options. All funds must be remitted from a bank account, card or other account in your name.

In the event we suspect third-party funding has occurred, we reserve the right to return the funds to the remitter and retain the balance in your Account, pending verification of proof of identity and the source of funds before processing. In the absence of verification, we reserve the right to retain the balance in your Account, and you will not be permitted to withdraw the balance in your Account.

Withdrawals

To withdraw funds, please login to your Client Portal and submit a withdrawal request.

All withdrawals from your Account are subject to available funds. When processing a withdrawal request, we may require additional information to prove that the beneficiary account is under your name as third-party remittances are not permitted.

All withdrawal requests are processed Monday to Friday during normal business hours. All requests received outside of these hours will be processed on the next Business Day.

Bank Transfers

For all international bank transfers, we require proof of identity and source of funds before processing. The corresponding bank account must be in the same name as your Account.

We cannot guarantee same day value for receipt of funds. Processing times are subject to your bank's processes. international bank transfers may take between 1 - 3 Business Days to be received.

Your bank may charge you a receiving fee for any international bank transfer, we are not liable for this fee and this will be incurred by you.

Cards

If you have deposited by debit or credit card, withdrawals may be made back to the card originally used to deposit funds. Refunds usually take between 1 - 3 Business Days to appear on your card statement.

We may only be able to return up to the original deposited amount of funds back to the same credit card. We may refund excess amounts by an alternative method which may require verification prior to payment.

Administrative Charges

We may apply administration charges for duplicate statements, telephone transcripts, audit certificates or for other requests. Fees will be advised upon request.

We may apply charges relating to debt collection communications, agency fees and legal costs. Fees will be advised when applicable.

Inactivity Fee

We reserve the right to charge an inactivity fee where there are funds in your Account but there has been no trading activity and no open positions on your Account for a continuous period of 12 months. After 12 months of inactivity, the fee will be charged within 30 business days and deducted monthly thereafter.

The fee charged is based on your Account currency as follows:

Account Currency	Monthly inactivity fee
CHF	10
EUR	10
GBP	10
PLN	40
USD	10

We reserve the right to close your Account without further notification to you, in the event your Account reaches a zero balance and there has been no trading activity on your Account for a period of 12 months.

Inactive Accounts and Server Performance

We will regularly archive data on our MT4 and MT5 trading platform servers to maintain server performance so your historical trade data may only be accessible for a period of 12 months. You may contact us to retrieve archived data.

MARGIN REQUIREMENTS

Margin Requirements shown in the tables below are correct as at the published date but are subject to change in accordance with the Client Agreement.

We shall always endeavor to provide notice of variations to Margin Requirements but please be aware that in some circumstances, such as unanticipated market events, advance notice may not be possible.

Please always refer to the Trading Platform for the Margin Requirement on your Positions.

Margin Foreign Exchange and Bullion Spot CFDs

The Margin Requirements for Margin FX Contracts and Bullion Spot CFDs are influenced by your Account leverage.

For these symbols your Initial Margin is calculated by using two factors: The symbol's Standard Margin Rate and your Account leverage.

Other CFDs

The Margin Requirements for Other CFDs are not influenced by your Account leverage.

CONTRACT SPECIFICATIONS

The tables below show the Contract specifications which are correct as at the published date but are subject to change in accordance with the Client Agreement.

Pricing

The price of a CFD is based upon the value of the Underlying Instrument. Because we deal as principal, the prices we offer you may not be the same as those in the Underlying Market. We derive our price by applying our spread to the prevailing bid and offer price in the Underlying Instrument.

Market Hours

MT4 and MT5 Trading Platform server times are based on GMT+3 when New York is observing Daylight Savings Time and GMT+2 when New York is observing Eastern Standard Time.

For non-US time zones their local and New York daylight savings changes will affect the sessions times relative to Trading Platform server time.

The Axi Platform shows the times in your local time zone equivalent

Spreads

Spread details are published on the Trading Platform.

Actual spreads will reflect conditions in the Underlying Instrument and can substantially widen during news events and around the end of each trading session.

Min and Max Trade Size (Lots)

The minimum and maximum trade sizes quoted in the contract specification tables are indicative of our typical default. We may at times elect to change the minimum and maximum sizes for some symbols. We reserve the right to increase or reduce these at our discretion where we feel market conditions or other factors warrant it.

Negative Balance Protection

Clients who are classified as Retail Clients are given the added protection of Negative Balance Protection. This means that you cannot lose more than the amount of money held with Axi.

For the avoidance of doubt, clients may have one Trading Account with Axi but may have multiple sub-Accounts in the form of Trading Platform logins. Therefore, the aggregate sum of monies held on all platforms will be taken into consideration and may be used to offset a negative balance.

RISK WARNING

CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage.

72.47% of retail investor accounts lose money when trading CFDs with this provider.

You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

The percentage of retail investor accounts that lose money when trading CFDs with us are published quarterly on our Website.

INITIAL MARGIN REQUIREMENTS

Initial Margin and Account Leverage Table for Margin FX and Bullion Spot CFDs

The Margin Percentage in the below Contract Specifications is used to calculate the Initial Margin which is payable upon the opening of a position. Please note the Margin Percentage displayed in the Trading Platform's Market Watch window is 100 times larger than the actual Margin Percentage applied to your positions and as such must be divided by 100, your Account Leverage, to calculate your applicable Margin Percentage.

Margin Percentage	Effective Leverage	Trading Platform Market Watch Calculation Method
3.33%	30:1	Market Watch 333% ÷ 100 = 3.33% Margin Requirement
5%	20:1	Market Watch 500% ÷ 100 = 5% Margin Requirement
10%	10:1	Market Watch 1000% ÷ 100 = 10% Margin Requirement

Initial Margin Rate and Leverage Table for Other CFDs

All Futures CFDs, Cash CFDs and Cryptocurrency CFDs have a fixed Initial Margin in accordance with the below Contract Specifications Percentage. The Margin Percentage in the Trading Platform Market Watch window display is the same value as the Contract Specifications below and **do not** require dividing by 100 like Margin FX.

CONTRACT SPECIFICATIONS: UK SHARE CFDS

We offer over 120 CFDs in UK shares and Exchange Traded Funds (ETFs). Please refer to the Platform for the current market offerings.

Value per Point: UK shares are quoted in pence. A point indicates a 1 pence change in the share price. If you bought 1 Lot of UK shares and the price rose from 245 pence to 250 pence you would be said to have gained 5 points, which would equal a total of 5 pence or GBP 0.05 per 1 Unit.

Financing Reference Rate: The Financing Reference Rate upon which we apply a margin is the Bank of England (BOE) base rate.

Trading Hours: The UK share market open at 8:00 AM London time and runs continuously until the close at 4.30 PM with a break from 12:00 pm to 12:02 pm.

Withholding Tax: No withholding tax is presently applicable.

UK Share CFDs are commission free.
